Forecast for Wednesday 07 Feb 2024

Weather: A band of snow showers, perhaps heavy, crosses from the northwest at around dawn, clearing to scattered lighter showers. The day bright with sunny intervals along with a few passing snow showers, these dying out by the evening.

Chance of cloud-free hill tops above 800m: 80%, but 30% for a time at first.

Low cloud and visibility: Occasional cloud at 800-1000m as showers pass through, but often well broken. Visibility generally very good but dropping poor briefly in snow showers.
